

Bruno Rocha

JavaScript | Full Stack Developer

bruno.taveira.r0.382@gmail.com | +55 24 99218-1476 | Rio de Janeiro, BR | [linkedin.com/in/bru-rocha](https://www.linkedin.com/in/bru-rocha) | github.com/RochtBruno

Professional Summary

Full Stack JavaScript Developer with proven experience building scalable web applications using modern frameworks and libraries. Proficient in JavaScript and TypeScript across the full stack — React.js, Next.js, Node.js, Nest.js — with solid expertise in RESTful API design, clean architecture (DDD/TDD), and both SQL and NoSQL databases. Experienced working in remote, distributed, agile environments, collaborating with cross-functional teams and communicating technical concepts effectively to technical and non-technical stakeholders. Currently expanding AWS knowledge (Lambda, Amplify, EKS) for cloud-native, scalable solutions.

Professional Experience

Full Stack JavaScript Developer — Utrip

Mar 2025 – Present | Rio de Janeiro, BR (Remote)

- Developed scalable, reusable JavaScript/TypeScript components with React.js, Next.js and Tailwind CSS in a Multitenant architecture.
- Built RESTful APIs with Nest.js following DDD and TDD patterns, focusing on clean, testable, and well-documented code.
- Managed relational (MySQL) and non-relational (MongoDB) databases, and optimized performance with Redis caching.
- Supported AWS operations (Lambda, Amplify, EKS) and automated deployment pipelines.
- Participated in code reviews, contributed to best practices, and communicated delivery quality to stakeholders.

Full Stack JavaScript Developer — 42 Rio + TAG (Brazil's largest natural gas distributor)

Oct 2025 – Mar 2026 | Rio de Janeiro, BR

- Designed and developed web applications and AI agents to automate internal processes using Python, LangChain, React.js, Node.js, Tailwind CSS, and REST APIs.
- Integrated solutions with enterprise systems, centralizing information and optimizing operational efficiency.
- Collaborated cross-functionally with stakeholders from technical and non-technical areas to define features and deliver enhancements.

Full Stack Developer — 42 Rio + Wilson Sons

Nov 2024 – May 2025 | Rio de Janeiro, BR

- Built full stack solutions using C, C++, Java, and Python, constructing RESTful APIs and backend applications with Node.js and Java.
- Applied clean architecture principles and DDD concepts; collaborated on multi-service integrations with Git versioning and Docker deployments.
- Worked in an agile development environment, troubleshooting and resolving technical issues across the application stack.

Education

Software Engineering — 42 Rio

Jul 2023 – Present | Rio de Janeiro, BR

Skills in JavaScript, C, C++, Docker, SQL, and agile methodologies through practical projects focused on logic, data structures, and real-world development.

Web Development — TripleTen

Oct 2024 – Sep 2025 | Rio de Janeiro, BR

Full stack development with JavaScript, React, Node.js, MongoDB, Git, and RESTful APIs — building complete applications with a focus on quality and best practices.

Technical Skills

Languages & Runtimes: JavaScript (ES6+) | TypeScript | Python | C | C++

Frameworks & Libraries: React.js | Next.js | Node.js | Nest.js | LangChain | Spring Boot

APIs & Architecture: RESTful APIs |DDD | TDD | Clean Architecture | Agile / Scrum

Databases: SQL | MySQL | MongoDB | Redis | NoSQL

Tools & Platforms: Git | Docker | AWS (Lambda, Amplify, EKS) | Tailwind CSS

Languages

English — Advanced | French — Intermediate | Portuguese — Native
